

# KEY RESUMES

**Keith E. Moore**  
*Associate Architect*

## **Education**

In 1984, Keith Moore received his Bachelor of Architecture degree from the University of Tennessee with an emphasis in structural technology. After apprenticing with Engle Associates and Anzuini & Associates in Colorado Springs, Keith became licensed to practice Architecture in Colorado in 1988.

## **Professional Experience**

Keith has worked in Architecture and the related field of construction since 1982. He is adept in the development of commercial, office, retail, hotels and multi-family housing facilities and has detailed experience in the production of construction documents and administration.

After working for Comstock and Associates as a Project Architect for four years, Keith formed Keith E. Moore and Associates in 1992. His firm was involved in retail centers, churches, office buildings and custom residential projects. In 1999, Keith joined Yergensen, Obering & Whittaker as an Associate. He serves as Project Architect for a variety of projects.

Keith has completed projects in Ohio, Oregon, and Washington State as well as Colorado's Front Range. He has been involved in multi-story mid and high rise office and hotel projects with varying structural designs from post tension to steel and composite deck. He has multi-use experience in parking facilities and multi family. Keith leads our high tech and security related projects by bringing years of experience to the clients requirements.

## **Awards**
